

OXYGEN ADMINISTRATION

Name:	Job Number:	Rating:		
Unit:	Job Title:			
Contract Date:				
Evaluation Key: M- Met NM- Not Met NA- Not Applicable		Method of Evaluation: Knowledge: Exam(Written/Oral) Skills: Demonstration/Discussion Attitude: Observation		
Rating Scale: Met: 90% - 100% Not Met: 89% & below and remedial once NA-(Not applicable) – entries to be deducted from the total score				
COMPETENCIES		EVALUATOR ASSESSMENT		
		M (1)	NM (0)	NA
I.	KNOWLEDGE			
1.	Discuss methods of oxygen administration and the various doses according to area of practice.	☐	☐	☐
2.	Verbalize the rationale of humidification versus the non-humidification of oxygen.	☐	☐	☐
3.	State the pre, during and post patient assessment involved when administering oxygen noting for example, the use of accessory muscles, cyanosis, nasal flaring, and inability to talk in full sentences.	☐	☐	☐
4.	Discuss the limitations of measuring oxygen saturation with pulse oximeter.	☐	☐	☐
5.	Explore the observations and parameters for reporting significant findings and vital signs to nurse in charge and/ or physician.	☐	☐	☐
6.	Discuss the need to and how to document the patient's comprehensive assessment, reassessment and vital signs of patient during the administration of oxygen and at the time of completion.	☐	☐	☐
7.	Explore all the infection control issues when administering oxygen to a patient.	☐	☐	☐
II.	SKILLS			
1.	Demonstrate the different methods of oxygen administration and the various doses according to area of practice.	☐	☐	☐
2.	Demonstrate how to set up humidification for oxygen administration.	☐	☐	☐
3.	Complete the pre, during and post patient assessment involved when administering oxygen identifying, for example, the use of accessory muscles, cyanosis, nasal flaring, and inability to talk in full sentence and explore what these signs could mean.	☐	☐	☐
4.	Demonstrate how to overcome the limitations of measuring oxygen saturation with pulse oximeter.	☐	☐	☐
5.	Complete the observations and compare with acceptable individual parameters for reporting significant findings and vital signs to nurse in charge and/ or physician.	☐	☐	☐
6.	Complete, the documentation of the patient's comprehensive assessment, re-assessment and vital signs during the administration of oxygen and at the time of completion.	☐	☐	☐
7.	Demonstrate the actions required to adhere to all infection control requirements when administering oxygen to patient.	☐	☐	☐
8.	Demonstrate ability to document any adverse findings and the appropriate action taken.	☐	☐	☐
9.	Demonstrate accurate and correct labeling of any specimens taken during the administration of oxygen to a patient.	☐	☐	☐
III.	ATTITUDE			
1.	Accept constructive criticism as learning opportunity/s.	☐	☐	☐
2.	To be self-aware of limitations in knowledge and skills.	☐	☐	☐
3.	To be approachable and open to answer patient and family's questions.	☐	☐	☐
4.	Deal with and manage patient information professionally with confidentiality and integrity.	☐	☐	☐
5.	Ability to organize and facilitate a reflection session in and on practice after a documentation learning opportunity occurs and activates findings to improve future practice and response.	☐	☐	☐
